

Default Question Block

Campus Tobacco Scan

Instructions: Complete the following campus scan by physically assessing the *entire* campus and checking the appropriate response to the questions. Keep in mind that the time of day (during/in between classes, lunch time, etc.) and weather can affect your findings. Please remember that you are required to conduct 5 scans of your campus.

As you're walking around, keep in mind that this survey will ask you questions regarding tobacco/nicotine use **around the outside** of the buildings on campus, vape/hookah shops, tobacco marketing and promotions, and tobacco policy signage (e.g. "No smoking", "Tobacco-Free Campus"). If you are able to take photos of any of these, please send to uttobacco@gmail.com.

Also, be on the lookout for "hot spots".

What is a "hot spot"? As you walk around campus, if you notice any places that are consistently (at least 2 times) surrounded by a group of people using tobacco/nicotine products, that is a "hot spot".

Campus Name:

Please select campus from list:

Weather

Clear/Sunny

Cloudy

Rainy

Type your name here:

Date: (mm/dd/yyyy)

Time: (hh:mm AM/PM)

Campus Tobacco Scan

As you assess your campus, please use this tool to document the places you assess as you're walking around your campus (**outside only**). You can also use this survey to document where you see tobacco or nicotine product use on campus. If you need more space, please complete a separate survey.

Don't forget to keep an eye out for hot spots.

Reminder:

Tobacco examples: cigarettes, snus, dip, cigarillos, etc.

Nicotine examples: e-cigarettes, vape pens, or e-hookah

Enter building name 1:

What type of building is $\{q://QID9/ChoiceTextEntryValue\}$?
